

Neighborhood Coffees

Coming Soon

The Bernards Township Health Department and Municipal Alliance Against Substance Abuse are planning a series of Neighborhood Coffees to be held March 21 through April 1, 2011.

The coffees are held in homes throughout the township and give neighbors and local high school students the opportunity to meet and discuss a variety of important issues facing today's teens. The 2011 coffees will center on the Municipal Alliance "It's 21 for a Reason" campaign, which focuses on the risks associated with underage alcohol consumption. The small group sessions are led by trained facilitators and provide a unique way for community members to meet their neighbors, share information and cultivate supportive relationships with teens.

Volunteers are needed to serve as hosts and facilitators, as well as to assist with planning and organizing. For more information, please contact Kathy Kelly, Community Assets Coordinator, at kathy.kelly@bernards.org or 908-204-3068.
