

Volunteers Needed!

**Any Student -- age 9 and up --
can learn to be a Mentor for a child with special needs.**

Would you like to be a buddy to a child? To watch their eyes light up when they see you coming?

Would you like to help children with special needs participate in recreational programs? Help them catch their first ball or score their first goal?

Attend our Mentor Training session and you will learn how to approach and engage children with special needs, how to help them learn new skills and make new friends.

**Register for one of our two training sessions at the
Bernards Township Library in Program Room B:**

**Saturday, February 12th from 2:00-4:00 p.m. or
Wednesday, February 16th from 6:00-8:00 p.m.**

If you are interested in attending or would like more information, please contact Amy Grotland - amy.grotland@gmail.com. We can train only 25 mentors at each session, so reserve your spot soon.

* This is the same program that was presented to all 3rd graders. If your child attended the seminar at school they are already eligible to participate in this program.

Ready to start? Contact Amy Grotland for a Mentor application and we'll match you with a buddy.
