

Science Fair Volunteers Needed!

Volunteers are needed to conference with students in school and assist them with their science fair projects for the annual Mount Prospect School Science Fair.

Training will be provided in January.

Volunteers are also needed to set up a display, demonstration or experiment and share their scientific expertise with our students at the fair on Friday April 1, 2011. If you are a scientist or work in any scientific field please think about offering your time and sharing your knowledge with our students. Interested volunteers may contact Mrs. Scully at sscully@bernardsboe.com.
