

## **NJASK Individual Score Reports**

The Individual Student Score Reports for the NJASK 3-8 were sent out this week for students who took the NJASK in Bernards Township during the 2009-2010 school year. These reports include the score and proficiency level on the Math, Language Arts, and Science (Grades 4 and 8 only) section. In addition, they include performance results by cluster (section) in each of the three areas. Please note that 200 is considered proficient (passing) while any score above 250 is considered advanced proficient. Total district performance on the NJASK will be posted on the district homepage by October 11th.
