

Oak Street Car Loop Drop-off/Pick-up Procedures

Here are some reminders for the parents dropping off or picking up at the Oak Street Car Loop:

- * Please pull all the way forward to the front cone or the car directly in front of you.
- * Please listen to the directions of the staff members on duty.
- * All adults must remain in their vehicles. Staff members will assist your child in entering or exiting the vehicle.
- * Students must exit on the passenger side (This is for their safety)
- * Students are to be ready to exit and enter the car on their own as it comes to a stop.
- * Teacher will NOT buckle students. Please practice at home.
- * It would be helpful if the student's name was placed in the front window or on the visor.
- * Vehicles must follow arrows and ride along railroad to back playground (Go to the right of the two cones at the entrance). Please do not cut through the line.

These rules are intended to keep the students safe during drop off and pick up and to keep the line moving efficiently. Thank you in advance for your patience and cooperation.

Dr. Costa and Mr. Graber
