

March 24, 2011

Dear Parents:

On Friday, April 29, the seventh grade students of William Annin Middle School will be participating in a celebration of Earth Day. As part of this educational and festive event, we are creating a presentation to be viewed by the entire seventh grade. The purpose of this presentation is to expose all students to the many vast and diverse natural wonders of our world. In order to achieve this, we are requesting you email a photograph of your child in a **natural setting**. This could include a picture from an outdoor family vacation or even one from your own yard. No, picture? This could be a great opportunity to take a hike and get outdoors and enjoy nature with your family. It is our goal that by increasing our appreciation for the Earth around us, a heightened awareness of our impact on this planet will be achieved.

Photographs that may be used for the presentation should be submitted no later than **April 22, 2011**. Please, email a picture to [Rsharpe@bernardsboe.com](mailto:Rsharpe@bernardsboe.com). Due to the large size of some files please attach the photograph in J-peg format and include the student's name and Earth Day Photo in the subject line. Thank you, we look forward to making this presentation part of a special celebration!
