September 2010

Dear Parent/Guardian:

Your child's Individual Student Report for the New Jersey 2010 Assessment of Skills and Knowledge (ASK) is included. The NJASK was administered in May 2010. This report reflects your child's Language Arts Literacy and Mathematics scores on this test.

The NJASK scores are reported as scale scores with a range of 100 to 300. Scores at or above 250 indicate "Advanced Proficient". Scores from 200 to 249 indicate "Proficient". If your child is in the "Advanced Proficient" or "Proficient" level, he/she has met the state standards for that content area. Scores below 200 indicate your child performed at the "Partially Proficient" level and has not met the state minimum level of proficiency.

This report is available only to parents, guardians, and authorized school officials. Please do not hesitate to call the Guidance Office, ext. 198 or x 114 if you have any questions about the report. If your child is now a ninth grader, please call the Guidance Office at Ridge High School.

Sincerely,

Jim Buist  
Amy Kamenir  
Elaine Matteo  
Cara Miscia
