

## THE POWER OF THE PENNY!

The Life Skills Cycle is raising money to support the re-design of the courtyard at William Annin. In this class, the students will be creating beds for flowers and vegetables as well as developing outdoor space for all members of the school community to utilize. They have already been busy cleaning up the area and are looking forward to making it the most beautiful place in the school. The first fundraiser will begin on September 27 and end on October 1. The title of the fundraiser is *Penny Power*. Most people have a great deal of spare change lying around, especially pennies! In homeroom next week, you can drop off some of that spare change each day Monday through Friday. Please help to support a great project that will really benefit everyone in the William Annin community! If you have any questions about this fundraiser, please contact Mr. Beykirch at [nbeykirch@bernardsboe.com](mailto:nbeykirch@bernardsboe.com).
